

Domestic waste water disposalunit with floor-mounted collecting tank.

Saniquick B and BT

Application

Homa Saniquick B and BT are used for removal of domestic waste water from hand basins, washing machines and cellar de-watering in rooms below the sewer level. Installation in cellars, basements and baths.

DIN EN 12050-2: Conformity and design approved and controlled by LGA **Installation:** Floor mounted collecting tank with odour-tight cover plate.

Conveying medium: Clear water and domestic waste water. Max. liquid temperature: 35°C, short term up to 60°C.

Construction

Waste water disposal unit consisting of: Collecting tank:

Plastic tank, volume 40 I, with 3 inlets DN 100. Connecting piece DN 70 for optional air vent. Cover plate with odour trap and activated carbon filter.

Pump/Motor:

One single stage centrifugal submersible drainage pump (model B) or two single stage centrifugal submersible drainage pumps (model BT). Fully submersible motor, 230V/1Ph. Insulation class B/F, Degree of protection IPX8. C250, C260, CR253, H505: Open multi-channel impeller, spherical clearance 10 mm dia.

CR360V: vortex impeller, spherical clearance 20 mm dia.

Speed: 2900 rpm

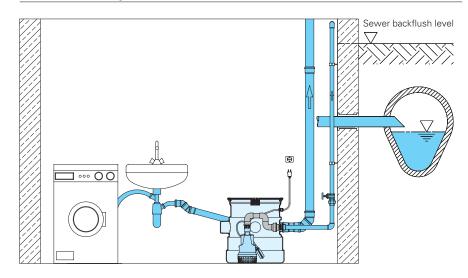

Pressure connection: G 11/4 F

Control box: Model B (1 pump) with float switch. Model BT (2 pumps) with electronic control box for control and monitoring of all important functions. Pneumatic level control with pressure operation. Auto-change over after each pump cycle. Operation of both pumps at high flow. In the event of failure automatic change over to the second pump. Motor protection relay. Optical failure alarm. Acoustic alarm by buzzer. Volt free contact for remote signal. Connection for ServCom controller (see accessories). Mains-independent alarm by installing a 9V battery (see accessories).

Model W: 230V/1Ph 50Hz
Model B: Single pump lift station
Model BT: Twin pump lifting station

Materials

Collecting tank	Polyethylene
Installation kit	PVC
Pump housing	
C(H)250 - C(H)260:	Impact resistant plastic
CR 253, CR 360V:	Stainless steel
Motor housing	Stainless steel
CH250 - CH260	high resistant stainless
	steel
Impeller	
C250 - C260:	Impact resistant plastic
CR 253, CR 360V:	Stainless steel
Motor shaft, screws	Stainless steel
CH250 - CH260	high resistant stainless
	steel
Elastomers	NBR

Scope of supply Saniquick B

Saniquick B

collecting tank, 1 pump with float switch, non-return-valve and discharge pipe, 3 m of cable and plug.
